

INGRETECH

INDUSTRIES LLP

Behind products that move the world

COMPANY PROFILE

OUR STORY & WHY WE EXIST

SOURCING PURITY

CRAFTING CONSISTENCY

POWERING WELLNESS

At Ingrectech Industries, we understand that behind every successful product is a chain of decisions — about sourcing, quality, compliance, and consistency. And too often, ingredient suppliers fall short where it matters most: reliability at scale.

We built Ingrectech to close that gap.

- We're here for the formulation teams frustrated by inconsistent batches.
- For procurement heads chasing down missing COAs.
- For product developers struggling with ingredient-performance mismatches.
- And for businesses losing time to unpredictable supply chains.

We don't just deliver ingredients. We solve the invisible problems that delay launches, compromise quality, and affect trust at the consumer level.

Our commitment is simple:

When you build with Ingrectech Industries, you build with certainty.

QUALITY WITHOUT BOUNDARIES

From daily nutrition to advanced wellness, Ingretech ingredients go beyond categories. We enable formulation performance across industries that are united by one need: uncompromising quality.

FOOD & BEVERAGE

Enhancing sensory, stability, and nutritional depth across everyday and functional formats.

NUTRACEUTICAL

Empowering innovation in health-focused delivery systems with technical reliability.

PHARMACEUTICAL

Supporting regulated formulations with compliant and compatible functional and botanical solutions.

PET & ANIMAL NUTRITION

Addressing advanced animal needs through ingredients aligned with health, palatability, and care.

From preventive wellness to performance nutrition, Ingretech ingredients adapt, integrate, and deliver — wherever quality meets function.

INGREDIENTS BY PURPOSE

At Ingretech, our portfolio is designed around functional outcomes and formulation needs. Whether you operate in food, nutraceuticals, pharmaceuticals, or animal nutrition, our ingredients are engineered for performance, scalability, and compliance — from lab to commercial scale.

**SPRAY DRIED FRUIT
POWDERS**

**VEGETABLE &
SPICES POWDERS**

**INSTANT TEA &
COFFEE**

**DAIRY & FAT
POWDERS**

HYDROLYSATES**

**FUNCTIONAL
ADDITIVES, AGENTS**

**PHARMACEUTICAL
INGREDIENTS**

**ANIMAL NUTRITION
& PET FOOD**

THE INGRETECH DIFFERENCE

In an ecosystem defined by complexity, speed, and precision, ingredient reliability has become a strategic advantage.

At Ingretech Industries, we are not positioned as a vendor—but as an integrated solution partner. We understand that the true measure of value lies not in what is shipped, but in how seamlessly it fits into your process, how confidently it scales, and how consistently it performs.

**Formulation
First Thinking**

**Specifications
Led Supply**

**Export Ready,
Globally Aware**

**Technical
Partnership**

**Repeatability
You Can Rely On**

**Cross Industry
Flexibility**

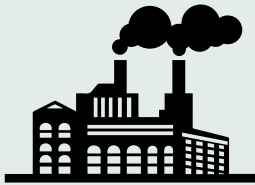

We operate at the intersection of quality, adaptability, and foresight—where ingredients become infrastructure. Our systems are built to reduce risk, enhance formulation control, and support innovation at every stage of growth. With Ingretech, you don't just secure supply. You strengthen certainty.

MANUFACTURING WITH PURPOSE

Built for Scale. Designed for Precision.

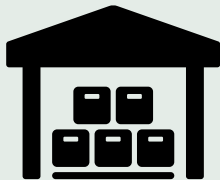

Our production and supply infrastructure is engineered to support consistent quality, scalable volumes, and global compliance across ingredient categories.

KEY CAPABILITIES:

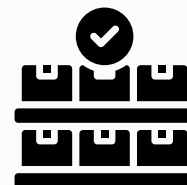

Spray drying, extraction, blending, and custom formulation

In-house Quality Control and product standardization systems

Clean, moisture-controlled storage and packaging zones

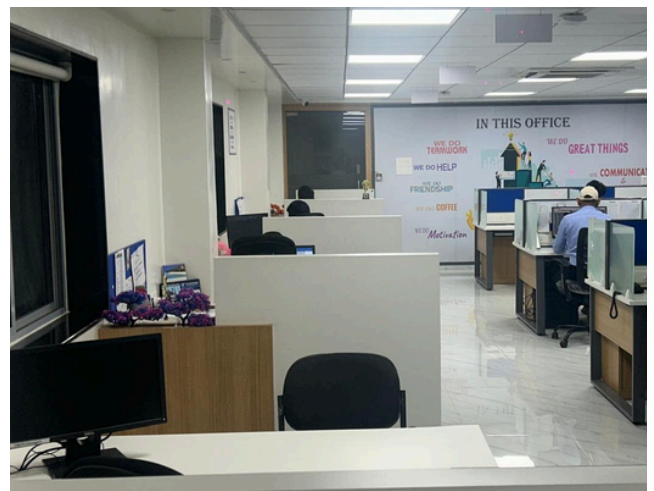

Flexible batch sizes for sampling to commercial bulk

Export-ready packing, documentation, and labeling support

Ingretech Industries actively collaborates with product development, R&D, and sourcing teams to create tailored ingredient solutions that align with performance, cost, and regulatory needs.
